Karl, wanted you to know that I thought Chris did a very good job writing up the decision document on Ergon, in a situation that called for skillful drafting.

Chris, I just had a few comments on the Decision Document, and added them to Gretchen's file. Partly I wanted to emphasize more the uniqueness of the circumstances here. I thought you did a very good job of capturing the results of all of the discussions we have had to date, for a decision document that was pretty hard to write. Thanks.

Gretchen,

Thanks very much for the comments - I will incorporate them, and send the revised version to John and you for a final review. Also, here's a first draft of a compliance plan for Ergon - this will probably change considerably, but I thought it would be helpful to have a draft as a

starting point.

John/Gretchen,

Here's my first draft of the decision document for Ergon, please let me know any comments,
